EMERGING LEADERS MENTOR PROGRAM
FAQ’s

How will mentors and mentees be matched?
Prior to being matched, both parties will complete the following paperwork in order to make the best most suitable match for each individual:

<table>
<thead>
<tr>
<th>MENTOR QUESTIONNAIRE</th>
<th>MENTEE APPLICATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mentors will complete a mentor questionnaire the provides the breadth of their experience as well as the competencies they feel comfortable in coaching a mentee.</td>
<td>Mentees will complete an application that provides their history and background as well what competencies they would like to concentrate on strengthening through the mentorship program.</td>
</tr>
</tbody>
</table>

After the Mentee Orientation that will finalize goals, a Mentor Orientation will be held with the mentors to match them with a mentee. The Mentee will receive information about their mentor to set up their ongoing sessions.

If there is a concern on either side, AL!VE will work with the individual to address their concern. If either declines to continue with the match, there will not be a replacement and they will have to discontinue participating in the program for this round.

What will a typical mentorship look like?
The best part of this mentorship program is that there will not be a typical type of mentorship! This program is very much tailored around what the mentee wants to learn and the approach the mentor feels most comfortable with helping them to achieve their goals.

Examples of what a mentor can offer include:

| Goal Setting | • Helps mentee discover talents and interests and define and attain their goals |
| Contacts     | • Provides valuable opportunities to connect with other career and personal contacts that may help mentee achieve goals |
| Challenges   | • Stiumlates curiosity and exploration around challenges to build confidence and problem-solving abilities |
| Support      | • Encourages reflection and growth by providing an open and non-threatening environment |
| Advice       | • Provides personal experiences or perspective to impart wisdom and knowledge learned over the years for the mentee's advantage |
| Role Model   | • By sharing stories of achievement with mentee, mentors can become role models |
